

Board Advisors to Scaling Businesses

Salary £60,000 plus benefits (pro-rata for part-time)
NE of England

We are looking for **board advisors to work with a portfolio of SMEs** to help them identify and overcome the barriers to scaleup and to meet their growth aspirations.

Each board advisor, supported by a team of specialists and peers, will work closely with founders and their leadership teams to develop and implement a growth action plan.

The best board advisors and non-executives often have as many scars as medals from their own business journeys and it is this **hard-earned, entrepreneurial experience** that we are looking for, along with the ability to **mentor and build trusted and valued relationships** with founders and their teams.

The role will provide an interesting opportunity for the successful candidate to **build an extensive network of business owners** and develop their credentials as a portfolio non-executive in the longer term.

Of particular interest will be a **background in digital transformation** – the use of digital technologies to create new, or modify existing, business processes, culture and customer experiences to meet changing business and market requirements.

To arrange an initial discussion, please contact Peter Neal.
